

Mission

Founded in 2009, the New Hampshire Fiscal Policy Institute (NHFPI) is an independent nonprofit organization dedicated to exploring, developing, and promoting public policies that foster economic opportunity and prosperity for all New Hampshire residents, with an emphasis on low- and moderate-income families and individuals. Based in Concord, NHFPI produces regular reports on the fiscal and economic challenges facing New Hampshire and strives to serve as a resource to anyone interested in meeting those challenges in a fair and sound fashion.

Affiliations

In its efforts to promote equitable, responsible, and sustainable fiscal and economic policies, NHFPI collaborates with two national networks of state-level policy research organizations, the State Fiscal Analysis Initiative (SFAI) and the Economic Analysis and Research Network (EARN).

Funding

NHFPI's work is made possible by the generous support of foundations, organizations, and individuals that share its vision of economic opportunity, prosperity, and security for all New Hampshire residents. Among its current supporters are the Annie E. Casey Foundation, the Endowment for Health, the HNH Foundation, and the New Hampshire Charitable Foundation.
