

# HOW WE FUND PUBLIC SERVICES IN NEW HAMPSHIRE

Presented by Phil Sletten, Policy Analyst

Pease Public Library Plymouth, New Hampshire October 24, 2018

# Public Services Help Ensure Our Quality of Life

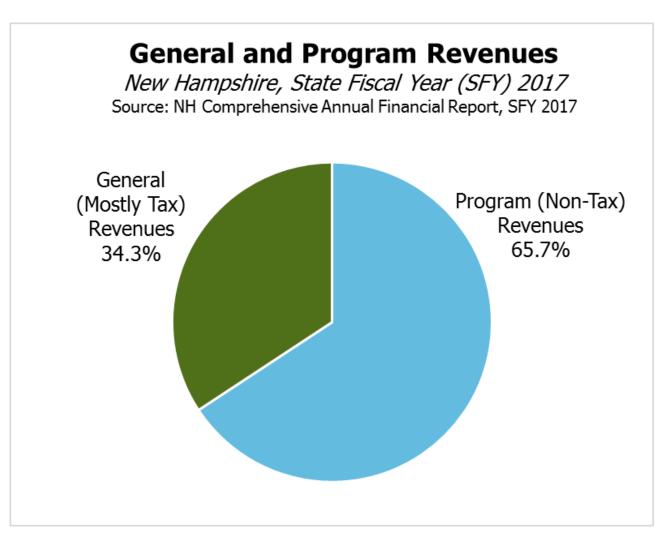

### Why is Revenue Important?

- Pays for services that help make our communities stronger
- Tangible and direct:
  - Roads and bridges
  - Police, fire, and emergency medical services
  - Education (including primary, secondary, and public higher education)
  - Public health services and health insurance services for those in need
  - Cleaning trash, clearing roads
  - Parks and preserves, including federal, state, and local protected areas
- Less tangible, but very important:
  - Benefitting from an educated workforce and public
  - Protecting citizens from harm and environmental degradation
  - Long-term investments, with positive returns, made collectively

## Why "Revenue"? Don't You Mean Taxes?

- Not all government revenue comes from taxes
- Collections through fees, charges, interest, and programs that sell products or services
- Federal programs, grants, and aid supply a large amount of revenue to the State government directly, also may provide funding for local government initiatives, support for other organizations

### What Revenue Are We Considering?

- The federal government collects revenue that ends up in State coffers, but that is not a focus here
- State Revenue: money collected through New Hampshire state taxation and other sources, including grants from the federal government
  - State tax revenue is usually the least restricted revenue, with federal grant programs and specific State fees more likely to have "strings attached"
- Local Revenue: money collected by New Hampshire counties, school districts, and municipalities (local governments), primarily through property taxes

#### **Business Profits Tax**

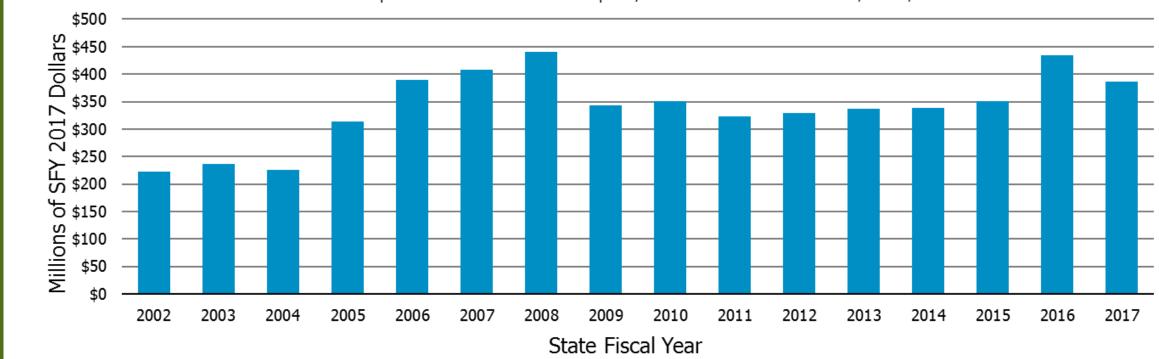

- Tax based on gross business profits, adjustments (BET), and apportionment
- Tax base likely about \$4.7 billion
- Funds General Fund and Education Trust Fund
  - 1.5 percentage points of the total rate to the Education Trust Fund
- Rate reductions underway:
  - 8.5% in 2015, 8.2% in 2016, 7.9% in 2018, 7.7% in 2019, 7.5% in 2021

#### **Business Enterprise Tax**

- Relatively unique among state business taxes, based on compensation, interest, dividends paid or accrued, adjustments, and apportionment
- Broader tax base, likely about \$35 billion
  - Funds the Education Trust Fund (0.50 percentage points of total rate) and the General Fund until rate phase-down
- Rate reductions underway:
  - 0.75% in 2015, 0.72% in 2016, 0.675% in 2018, 0.60% in 2019, 0.50% in 2021

### State Revenue System - Strengths and Weaknesses

- Reliance on many revenue streams, most with narrow bases
- High importance of non-tax revenue sources, such as liquor and lottery sales
- Fortunes do not rise or fall with changes in a single revenue source, adds stability to the revenue system relative to other states
- Narrow bases more likely to disappear with changing economy
- Policymaker flexibility might be more limited because of narrower bases, large or many adjustments may be needed to react to changes
- Certain revenue sources likely to be declining over time, such as the Tobacco Tax and the Communications Services Tax
- Changing demographics may complicate sustainability
- Reliance on federal sources results in limited options if funding from the federal government is reduced

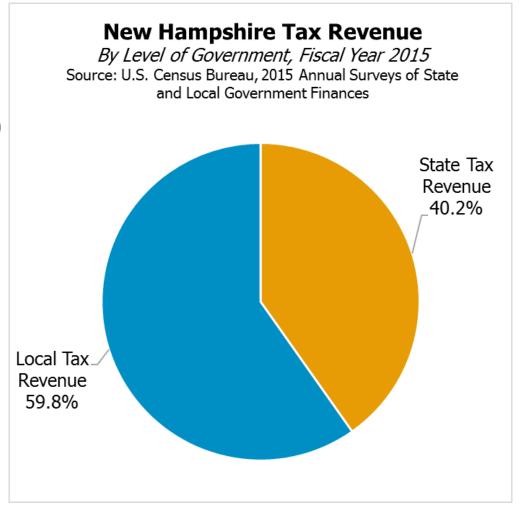

### State Revenue System - Strengths and Weaknesses

# Local Revenue System - Local Governments

#### **Local governments includes:**

- School districts
- Municipal governments (town and city)
- County governments
  - Sheriff's departments
  - County nursing homes and long-term care
  - County jails
  - County attorney
  - Register of deeds office
  - Unincorporated townships

# Local Revenue System - Sources

- Grants from other levels of governments (state and federal)
- Fees, grants, or gifts
- However, only viable tax option is the property tax

#### **The Local Property Tax**

- 99 percent of all local tax revenue
- 60 percent of all local revenue, including grants from State and federal government, school lunches, etc.
- \$3.3 billion dollars in tax year 2017
- About 90 percent of property taxes paid in NH are local taxes

# State Funding For Local Governments – Recent State Decisions

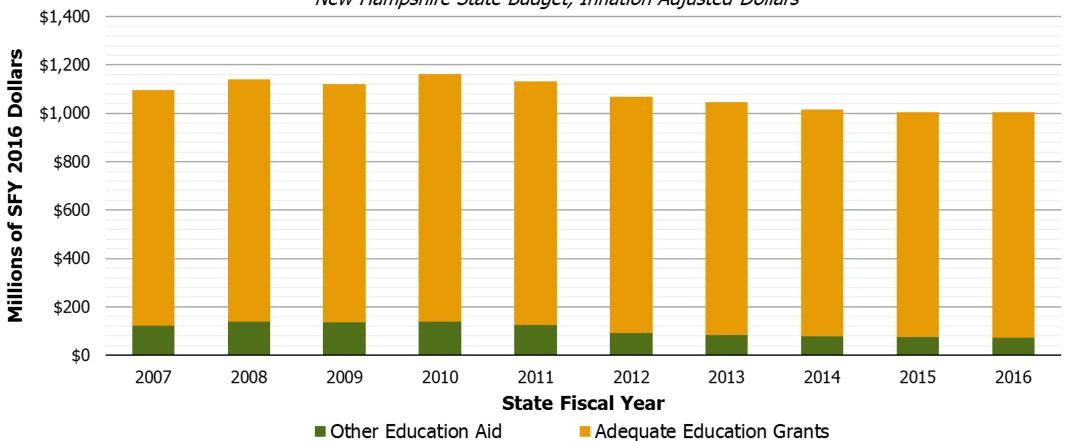

- Much of the on-paper dollar value is in Adequate Education Grants, less when locally-raised Statewide Education Property Tax is removed
- Adequate Education Grants modified, stabilization aid to decline 4 percent annually starting in SFY 2017 and continuing for 25 years
- The school building aid program has not accepted new projects since SFY 2010, with one exception
- Since SFY 2013, State contribution to local teachers, police, and firefighter retirement costs has been suspended, was 35 percent in SFY 2009 and earlier
- Meals and Rentals Tax distribution to municipalities set at 40 percent of revenue in law, but formula to reach that percentage has been suspended
- Revenue sharing program has been suspended since 2010
- Environmental grants for drinking water and wastewater facilities and landfills have been declining in aggregate
- Highway and bridge aid funding has fluctuated over time, recently an influx of one-time funds

# **A Connection Between Local Property Tax Increases and State Budget Decisions?**

- Local property tax rates depend on many factors
- But a logical connection exists
- And federal budget decisions could affect your local property tax bill if changes are made that influence State policymaker decisions concerning aid to local governments
