HOW NEW HAMPSHIRE FUNDS PUBLIC SERVICES AT THE STATE AND LOCAL LEVELS

PRESENTED BY PHIL SLETSEN, RESEARCH DIRECTOR

NEW HAMPSHIRE GOVERNMENT FINANCE OFFICERS ASSOCIATION

JULY 19, 2023
ROAD MAP THROUGH THE REVENUE SYSTEM

• New Hampshire State revenue sources
• Recent trends in New Hampshire State revenues
• Construction of the New Hampshire State Budget
• Federal pandemic-related aid in New Hampshire
• New Hampshire local government revenue sources
• Impacts of State decisions on local revenues

For more information on State revenues, see *Revenue In Review* at nhfpi.org.

Also, see the New Hampshire Department of Revenue Administration and the New Hampshire Annual Comprehensive Financial Report, which provide key information used in this presentation, for more details.
WHY REVENUE IS IMPORTANT
WHY REVENUE IS IMPORTANT

• Pays for services that help make our communities stronger
• Tangible and direct
  o Roads and bridges
  o Police, fire, and emergency medical services
  o Education (including primary, secondary, and public higher education)
  o Assistance accessing child care and early education services
  o Unemployment assistance and job training
  o Public health services and health coverage for those in need
  o Cleaning trash, clearing roads
  o Parks and preserves, including federal, state, and local protected areas
• Less tangible effects
  o Benefits from an educated public and workforce
  o Protects citizens from harm, environmental degradation
  o Long-term investments, with positive returns, made collectively
WHY “REVENUE”? ISN’T IT JUST TAXES?

- Not all government revenue comes from taxes.
- Revenue is also collected through fees, charges, interest, and programs that sell products or services.
- Federal programs, grants, and aid supply a large amount of revenue to the State government directly; also may provide funding for local government initiatives and support for other organizations.

GENERAL AND PROGRAM REVENUES FOR THE STATE OF NEW HAMPSHIRE, STATE FISCAL YEAR 2022

- General (Mostly Tax) Revenues 31.2%
- Program (Non-Tax) Revenues 68.8%

WHICH REVENUES ARE WE DISCUSSING?

Three Levels of Government Revenue

• **State Revenue**: money collected through New Hampshire State taxation and other sources, including grants from the federal government

• **Local Revenue**: money collected by New Hampshire’s local governments (counties, school districts, and municipalities), with tax revenue collected primarily through property taxes

• **Federal Revenue**: money raised from economic activity in New Hampshire and nationwide that flows to state and local budgets; federal revenue collections are not a focus in this presentation

• Generally, federal grants to the State and certain State revenue sources have legal restrictions on use, such as being directed to a specific program

NEW HAMPSHIRE’S STATE BUDGET FUNDS

THE STATE BUDGET FOR FISCAL YEARS 2024 AND 2025, BY FUND
Includes Operating Budget and Trailer Bill Appropriations

- Funds act like accounts
- Interact with one another
- General Fund most flexible
- General Fund fills any Education Trust Fund shortfall
- Lottery revenues, gasoline and motor-vehicle revenues directed by the State Constitution
- Other funds directed by statute
- Federal Funds support about a third of the State Budget

Sources: New Hampshire State Constitution, Part 2, Articles 6-a and 6-b; NHFPI, Building the Budget, February 2017.
FEDERAL FUNDING AND STATE SERVICES

Medicaid
- Approximately $2.5 billion expenditure in SFY 2022 from all sources, with more than half of the total supported by federal funds
- About 199,000 Granite Staters had access to health care through the program at the end of June 2023, decrease from pandemic highs, yet still higher than 2019

Other Program Areas
- Federal transportation aid
- Education aid – special education, school meals, professional development
- Water pollution and infrastructure funds, clean and drinking water programs
- Food Stamps/Supplemental Nutrition Assistance Program (SNAP)
- Women, Infants, and Children Nutrition Program (WIC)
- Temporary Assistance for Needy Families (TANF)
- Veterans’ care aid
- Low Income Home Energy Assistance Program (State Fuel Assistance Program)
- Many other areas

QUESTION

WHAT ARE THE LARGEST NON-TAX REVENUE SOURCES FOR THE STATE?
LARGEST NON-TAX REVENUE SOURCES

To All Funds (State Fiscal Year 2022)

• Federal Grants - $3,675.9 million
  (includes pandemic-related aid transferred to State during SFY 2022 and all other federal transfers to Governmental and Enterprise Funds)

• Liquor Commission Sales and Services - $761.9 million
  ($172.6 million in operating profits for other State uses)

• Lottery Commission Revenues - $536.8 million
  ($146.6 million in profits for Education Trust Fund)

• Turnpike Tolling - $137.8 million

ENTERPRISE REVENUES AND FUNDS

Liquor Commission
• Operates State liquor stores that are sole source for liquor and spirits, while certain wine may be sold from licensed businesses; beer is taxed
• Pays for its own operations, the Alcohol Abuse Prevention and Treatment Fund, non-federal expanded Medicaid, and the General Fund

Lottery Commission
• Sells lottery tickets and oversees racing, charitable gaming, Keno, sports betting; several recent expansions to scope of gaming
• Per constitutional requirement, profits go to the Education Trust Fund

Turnpike System
• Tolls users of three turnpikes to operate, construct, and maintain them
• Not all 89 miles of turnpike highway are tolled, sections can be transferred from other Department of Transportation ownership

Unemployment Compensation Fund
• Charges employers at a variable rate, funds unemployment payments
STATE REVENUE SYSTEM: STRENGTHS AND WEAKNESSES

- Reliance on many revenue streams, most with narrow bases
- High importance of non-tax revenue sources, such as profits from liquor and lottery sales
- Fortunes do not rise or fall with changes in a single revenue source, adds stability to the revenue system relative to some other states
- Policymaker flexibility might be more limited because of narrower bases, large or many adjustments may be needed to react to changes
- Increased importance of the Business Profits Tax could add reliance on a single, relatively volatile revenue source
- Narrow bases more likely to disappear with changing economy
- Certain revenue sources likely to be declining over time, such as the Tobacco Tax and the Communications Services Tax
- Changing demographics may complicate sustainability
- Reliance on federal sources results in limited options if funding from the federal government is reduced
THE PROCESS FOR CREATING THE NEW HAMPSHIRE STATE BUDGET
QUESTION

WHAT CAN YOU TELL ME ABOUT HOW THE STATE BUDGET IS CREATED?

HAVE YOU EVER HEARD OF “HOUSE BILL 2”?
BASICS OF THE STATE BUDGET

Two-year, or biennial, operating budget

- Funds *most*, but not all, State operations for two State Fiscal Years (SFYs)
- Current State Budget will provide funding for SFYs 2024-2025, which will span July 1, 2023 to June 30, 2025, from last year’s surplus and two years of revenue
- State Budget appropriates approximately $15.17 billion for these two years

Comprised of two separate pieces of legislation

- Operating Budget Bill, typically House Bill 1 or “HB 1,” holds the line-item appropriations with the amount of money in each component of State programs
- Trailer Bill, typically House Bill 2 or “HB 2,” is the companion omnibus bill with policy changes and appropriations separate from HB 1

Not all State expenditures are in State Budget

- Capital Budget (HB 25), covers six years with changes every two years
- Ten Year Transportation Improvement Plan, altered every two years
- Separately authorized expenditures, such as bills that appropriate funds, spending requests granted by the Joint Legislative Fiscal Committee, or separate off-budget funds; for example: Medicaid Expansion under the Patient Protection and Affordable Care Act enacted outside of the State Budget

- Economic Impact Payments, $1,400 per individual
- Continuation of Pandemic EBT program for students out of school
- Expanded, fully-refundable Child Tax Credit, which caused substantial reductions in poverty, and expanded Earned Income Tax Credit
- Health coverage subsidies for individual marketplace purchasers
- Emergency rental assistance
- Support for child care aid grants for eligible individuals and families, and added support for child care centers
- Aid for public and private higher education, also to non-public schools
- More aid to certain health centers funded through key federal agency
- Expanded Paycheck Protection Program, restaurant and venue aid
- Tax credits for smaller employer paid sick, family leave cost

QUESTION

DID YOUR JURISDICTION RECEIVE ONE-TIME FUNDING FROM THE FEDERAL GOVERNMENT SINCE MARCH 2020?
SIGNIFICANT PANDEMIC-RELATED AID FOR GOVERNMENTS AND ORGANIZATIONS

• Billions of federal dollars came to the State and to local governments for a variety of purposes, both directed and flexible funds

• Flexible aid from the American Rescue Plan Act, “Coronavirus State and Local Fiscal Recovery Funds,” to be used to:
  o Respond to public health and economic impacts of the pandemic
  o Provide premium pay and support for essential workers
  o Replace lost public sector revenue due to the pandemic to support government services
  o Make necessary investments in water, sewer, and broadband infrastructure

• Federal government encouraged recipients “to consider funding uses that foster a strong, inclusive, and equitable recovery, especially uses with long-term benefits for health and economic outcomes.”

• School districts also received aid, but a separate appropriation through Elementary and Secondary School Emergency Relief funds

For more information, see NHFPI’s resource page: The American Rescue Plan Act and New Hampshire: Recent and Updated Resources.
Funds must be obligated by December 31, 2024 and spent by December 31, 2026.

STATE AID TO MUNICIPALITIES DECLINED AFTER GREAT RECESSION

NEW HAMPSHIRE STATE AID TO LOCAL GOVERNMENTS, INFLATION-ADJUSTED AND EXCLUDING EDUCATION AID

Millions of SFY 2023 Dollars

State Fiscal Year (SFY)

KEY CHANGES IN NON-EDUCATION FUNDING FOR LOCAL GOVERNMENTS

- Meals and Rentals Tax distribution to municipalities set at 30 percent of revenue in law in last State Budget, previously 40 percent, but formula to reach that percentage had been suspended most years in the last decade.

- Meals and Rentals Tax distribution based on per capita payments, differs from the SFYs 2020-2021 State Budget $20 million per year aid, which were distributed based on the number of resident students and the number of free and reduced-price meal eligible students in residence.

- Traditional revenue sharing program has been suspended since 2010.

- Since SFY 2013, State contribution to local teacher, police, and firefighter retirement costs has been suspended; 35 percent in SFY 2009 and earlier; one-time appropriation for 7.5 percent of costs for SFY 2023.

- Environmental grants for drinking water and wastewater facilities and landfills have declined in aggregate; recent State Budgets have included small increases or one-time boosts in funding.

- Highway and bridge aid funding has fluctuated over time, recently an influx of one-time funds in several different one-time appropriations; legislation last year appropriated $66 million for road and bridge maintenance, for example.

KEY TAKEAWAYS

• New Hampshire State government has a wide array of revenue sources, has been fortunate during the pandemic.

• However, State revenues increasingly dependent on behavior of corporate profits, could be more volatile in the future.

• Property taxes are key for local governments, majority of revenue and nearly all tax revenue.

• Federal policy decisions impact State finances, and State policy decisions impact local finances.

• Aggregate reduction in inflation-adjusted State aid to local governments following Great Recession, recent one-time aid has provided additional assistance.

• Federal response to the pandemic and the rebound in the economy have made resources available for public services and have helped build a more equitable recovery.
